depth
REQUIREMENTS

available from
SINGLE GANG
to four gang

Reversing Motor Circuit
Ground 1 & 6
Hot 3
Motor Wires 2 & 5

WIRE COLOR BY SLOT

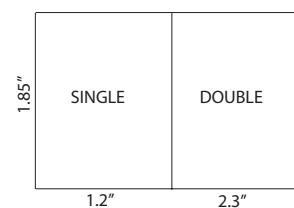

These new high current switches further compliment the @Home Series line of products.

The @Home Series, 12V wall switch panels, were developed based on the collective input of engineering and interior design personnel within our industry. The result is a family of new switch panels with the following features:

- 40 A Peak High Current capacity for motor switching/reversing applications.
- 20 A Continuous Capacity for applications that require a high current draw.
- Multiple switch configurations provide superior cosmetic design, fit, and function while using the same switch button.
