

ECLIPSE PATIO AWNING

ECLIPSE ORDERING INFORMATION & SPECIFICATIONS

SIZES AVAILABLE: 12' 13' 14' 15' 16' 17' 18' 19' 20' 21'

EXTENSIONS AVAILABLE: 8' or 9' (XL)

ECLIPSE TIPS, FACTS, AND COMMONLY ASKED QUESTIONS:

THE ECLIPSE:

- Available in several models, 12V Hardwired (Standard & XL) & 12V Battery operated.
- Available as a complete awning or as an upgrade to existing Carefree or A&E awnings with an 8' extension. If upgrading an A&E, you can use the existing roller tube assembly up to 17' with the A&E retrofit kit. If you have an 18' to 21' A&E steel roller tube, you must replace this with a Carefree aluminum roller.
- Does not have springs. (If upgrading, simply take out springs from the current roller.)
- Awning is measured center of arm to center of arm.
- Canopy is always 10" shorter than size ordered.
- Standard Eclipse is available in all fabrics and colors. XL Eclipse is available in all fabrics and colors except horizontal stripe Acrylics.

ECLIPSE ARMS:

- **12V Battery Operated:** No wiring is required. The rechargeable battery is located inside the front arm and the operation switch is on the base of the front arm. The 12V battery charger comes with 23' of cord with a jack that fits a special receptacle in the base of the front arm. Note: Battery operated arms WILL NOT accept the WindSmart, Direct Response, or Wireless Remote options.
- **12V Hardwired:** Must be wired into a dedicated 12V source inside of the RV. Includes two operating switches: An exterior switch on the base of the front arm, and an interior switch. Select this model if you want the WindSmart, Direct Response or Wireless Remote options.
- Custom colored options are available for the arms and alumaguard.
- Upgrading from a Carefree manual awning? Purchase only the Eclipse arms.
- 12V Hardwired model requires 12 Volt power and a dedicated 15 Amp circuit.
- Amp draws for motor: 4.7 minimum, 8 Amp maximum when locking.
- Arm sets require a flat unobstructed area 4.25" wide X 69" high, measured DOWN from the awning rail.

Door Clearance Note:

The minimum distance from the top of the door to the awning rail:

Square Corner Doors: 7" for Alumaguard or 6" for Vinyl Weatherguard.

Radius Doors: 6" for Alumaguard or 5" for Vinyl Weatherguard.

WARRANTY:

Carefree Two & Four Year Limited Warranty

- Two Years 100% on canopy, parts, labor, freight. Four Years, 100% parts, labor and freight on roller assembly, motor, electronics, and hardware from manufacturer defects.

SHIPPING:

- Cannot be shipped UPS. Applicable freight surcharges apply.
