12-VOLT ONE-TOUCH ORDERING INFORMATION & SPECIFICATIONS

SIZES AVAILABLE: 12' 13' 14' 15' 16' 17' 18' 19' 20' 21'

EXTENSION AVAILABLE: 8'

ONE-TOUCH TIPS, FACTS, AND COMMONLY ASKED QUESTIONS:

THE 12V ONE-TOUCH:

- Available as a complete awning or as an upgrade to existing Carefree or A&E patio awnings.
- Operates on 12V power and requires a dedicated 15 amp circuit.
- Amp Draw: 4.7 amps minimum, 8 amps maximum.
- Does not have springs. If you are upgrading a traditional awning, you will need to remove the springs from the roller tube.
- Is measured center of arm to center of arm. Specific measuring and upgrade requirements are found on the opposite page.
- Is available in Vinyl, Vinyl Custom Graphics, Polyweave and Standard or custom Sunbrella Acrylic fabrics and custom colored alumaguard and arms.
- Has a preset pitch from the factory to allow for rain run-off. Adjustable rain release setting is not available.
- If an adjustable setting is required, please look at our Eclipse or 12V Quick 'N' EZ awnings.

12V ONE-TOUCH ARMS:

- Arms are available in several models: Short, Universal & Beltline.
- Custom colored options are available for the arms and the Alumaguard.
- Upgrading a Carefree Spirit or Fiesta awning? Purchase only the ONE-Touch arms.
- To upgrade an A&E awning, order the ONE-Touch arms and the A&E retrofit kit.
- Measuring criteria regarding arms and door clearance needed are listed on the opposite page.

12V ONE-TOUCH OPTIONS:

- The current WindSmart Upgrade Kit will retrofit all pre-2005 ONE-Touch models.
- The wireless remote control will only work once you have installed the WindSmart kit. Additional remote controls may be purchased.

ORDERING:

You will need to know the following information:

- Is this a complete new awning or an upgrade?
For A&E upgrades through 18' remember to order the A&E retrofit kit.
For A&E upgrades 19'-21' you need to order a Carefree roller tube.
- The length of the awning (center of arm to center of arm).
- Canopy color, choice of fabric, weatherguard or alumaguard color choice.
- Arm size (Short, Universal or Beltline).
- Color of arms including any custom colored options.
- Would you like the WindSmart auto retract feature?
- Would you like the optional wireless remote control? (Requires WindSmart)

WARRANTY:

Carefree Two & Four Year Ltd. Warranty

- Two Years 100% on canopy, parts, labor, freight. Four Years, 100% parts, labor and freight on roller assembly, motor, electronics, and hardware from manufacturer defects.

SHIPPING:

Cannot be shipped UPS. Applicable freight surcharges apply.

12-VOLT ONE-TOUCH AWNING CLEARANCE GUIDE

WHAT YOU SHOULD KNOW WHEN ORDERING A 12V ONE TOUCH:

12V One-Touch patio awnings are similar to traditional awnings in many ways, however there are some differences in measuring and ordering that you need to consider.

- When determining the length of the roller tube assembly, consider that the wiring receptacle must be installed through the side of the RV at a point 3"-5" below the awning rail, and 1"- 4" to the left of the front arm assembly. Be sure the arms do not interfere with anything that may be mounted on the sidewall of the coach.
- The wireless remote control will only work if you first install the optional WindSmart, or Direct Response electronics package.
- One-Touch arms are not available for curved arm applications.
- One-Touch arms are available for some 5th wheel applications-Please contact Carefree for specifics.

12V ONE-TOUCH DOOR CLEARANCE GUIDE:

If your RV does not conform to the following installation requirements, your door will interfere with the awning canopy. Therefore we recommend that you **DO NOT ORDER A ONE-TOUCH AWNING**. Please consider either our Eclipse or 12V Quick 'N' EZ products.

STRAIGHT ARMS ONLY	AWNING RAIL TO BOTTOM BRACKET	30" DOOR		28" DOOR		26" DOOR		24" DOOR
