EXTENSION: 36" = STANDARD

46" = FOR AUTO RAFTER MODEL

TRUCKIN' AWN TIPS, FACTS AND COMMONLY ASKED QUESTIONS:

THE TRUCKIN' AWN STANDARD & AUTO RAFTER:

- Length is measured center of arm to center of arm.
- Fabric will measure 6" less than the overall size selected.
- Available in Vinyl, and PolyWeave fabric with vinyl weatherguard.

MEASURING TIPS:

- Verify that there is at least 3" of horizontal unobstructed mounting space above the door. Decide where the arms will fit and ensure they will not interfere with lights, ladders, etc.
- You must allow for 3" of uninterrupted clearance above the door and 2" of clearance on each side of the arm brackets and arms.
- For ultimate shade protection, order as wide an awning as you can install, from one side of your camper all the way to the ladder.
- Truckin' Awn must be able to slide into the awning rail provided.
- Standard vs. Automatic Rafter Models do have different specific measuring criteria, please see below.
- See also measurement criteria on diagrams below.
