

Before Beginning

- ✓ Read all instructions completely.
- ✓ Wear protective gloves, glasses, long sleeves, and nose/face mask to avoid contact with human waste.
- ✓ For hygienic reasons, rinse tank and hose thoroughly.

1. Pull old lanyard from tank body.
2. Turn old Level Gauge clockwise until two finger tabs line up with “O”s on tank body. Lift off old Level Gauge. Discard.
3. Line up and insert new Level Gauge into tank. Turn counter-clockwise until finger tabs line up with “V”s on tank.
4. Connect lanyard on tank.
