

GUARDI-AWN

GUARDI-AWN ORDERING INFORMATION & SPECIFICATIONS

Sizes Available: 6' –17' IN 6" INCREMENTS

Extension Available: 38" STANDARD

GUARDI-AWN TIPS, FACTS AND COMMONLY ASKED QUESTIONS...

THE GUARDI-AWN:

- Available in vinyl, polyweave, fullview and acrylic.
- Available with vinyl weatherguard or Alumaguard.
- Arms are available in Satin, White and Cameo.
- White comes with white castings. Satin and Cameo come with black castings.
- Complete with roller, arms, awning rail and hardware.
- Canopy will measure approximately 3" less than the Guardi-Awn size ordered. (Example: TE172563825 the fabric will measure 69")
- Standard extension will accommodate rooms with an extension 18"-38".
- Overall fabric extension, including the window awning portion will measure 68".
- On a shorter room extension the window awning portion will extend further away from the coach. If this is the case we recommend using Carefree Fullview fabric on the window portion of the Guardi-Awn so as not to block the view while Guardi-Awn is extended

MEASURING TIPS:

- Length-measure the slideout room from outside of flange to outside of flange, then add 6", and select the next largest size. (Example: Room flange to flange measures 116" then add 6"=122", round up to the next size which is 126" or 10 ½'.)
- Extension-fully extend the slideout, and measure from the sidewall of the unit to the front of the flange.
- Length measurement is always center of arm to center of arm.
- Guardi-Awn awnings are custom made to the specifications you provide.

MOUNTING:

- The awning rail must mount with the bead of the rail a minimum of 1" and a maximum of 5" above the top of the slide out room face (top flange).
- Guardi-Awn arms mount on the sidewall of the coach, not on the face of the slideout room.
- To mount the arms allow an unobstructed area measuring a minimum of 2 ½" wide and 59" down from the awning rail.

ORDERING:

You will need to know the following information:

- Flange to flange measurement of slideout room.
- Slideout room extension.
- Canopy color and fabric for roof & window awning.
- Arm color.
- Alumaguard color if applicable.
