

# Model 3000-400

## Oil Change System

### FEATURES :

- Remove dirty oil through dipstick tube. Comes complete with all necessary hoses and oil storage container. Liquid temperatures from 40°F-185°F.
- Thermal overload protection.
- Built-in reversible switch and 8 ft. cable with battery clips.
- BUNA Impeller.  
Ports threaded - 3/4" M garden hose  
3/8" Female NPT

Simple, safe, sanitary. Shurflo makes a messy job sure and easy. Simply install the oil probe in the engine oil dipstick tube, attach the battery clips and flip a switch.

Oil is safely and neatly removed and stored in the easy to carry container. To empty the container, flip the switch in reverse.

These flexible impeller pumps are truly flexible. A Buna impeller allows use for a variety of needs, from bait tanks to wash down to fresh water. Use it for an emergency bilge pump, winterizing or anti-freeze.

These pumps incorporate Shurflo's advanced motor technology which includes permanent magnets and integral thermal overload protection.

Models include a built-in 3 position switch to simplify flow reversal, and 8 foot cables with battery clips for ease of installation and portability.

### OIL CHANGE SYSTEM INCLUDES :

- 12 VDC Reversible Impeller Pump
